

Airam Led

4W 15000h BX

Dimmable range for all residential lighting needs

A lamp series covering all residential lighting needs. All models are dimmable with an LED dimmer. The clear DIM symbol indicates dimmability. The lamps have a pleasant warm white (2700 K) colour temperature. The opal light source provides non-glaring light. The eco-friendly cardboard packages are colour-coded. The colour indicates the corresponding incandescent bulb, making the choice simpler for the consumer. Technical specifications are also clearly presented. Ensure the compatibility of the range's 12V lamps with your transformer.
