

## 3W 15000h BL

Works without a separate dimmer

Dimming the lamps in this series could not be easier! No electrical installations or dimmers are required. The light level can be controlled with a regular switch. The lamps initially light up at full power. If the light switch has been turned OFF and back ON within three seconds, the level can be adjusted in steps. The eco-friendly packages indicate the corresponding incandescent bulb, making the choice easier for consumers. Technical specifications are clearly presented.

Clear capsule bulb LED lamp 3-Step Dim 3W 2700K G9 300lm 15000h 16x49mm, blister packing. Dimmable with normal switch, light levels 100%, 50% and 10%. Supply frequency ~50/60Hz.
