12 Inputs / Outputs

User-friendly Smart Home Control with Matter.

Scenes & Automations

Voice Control

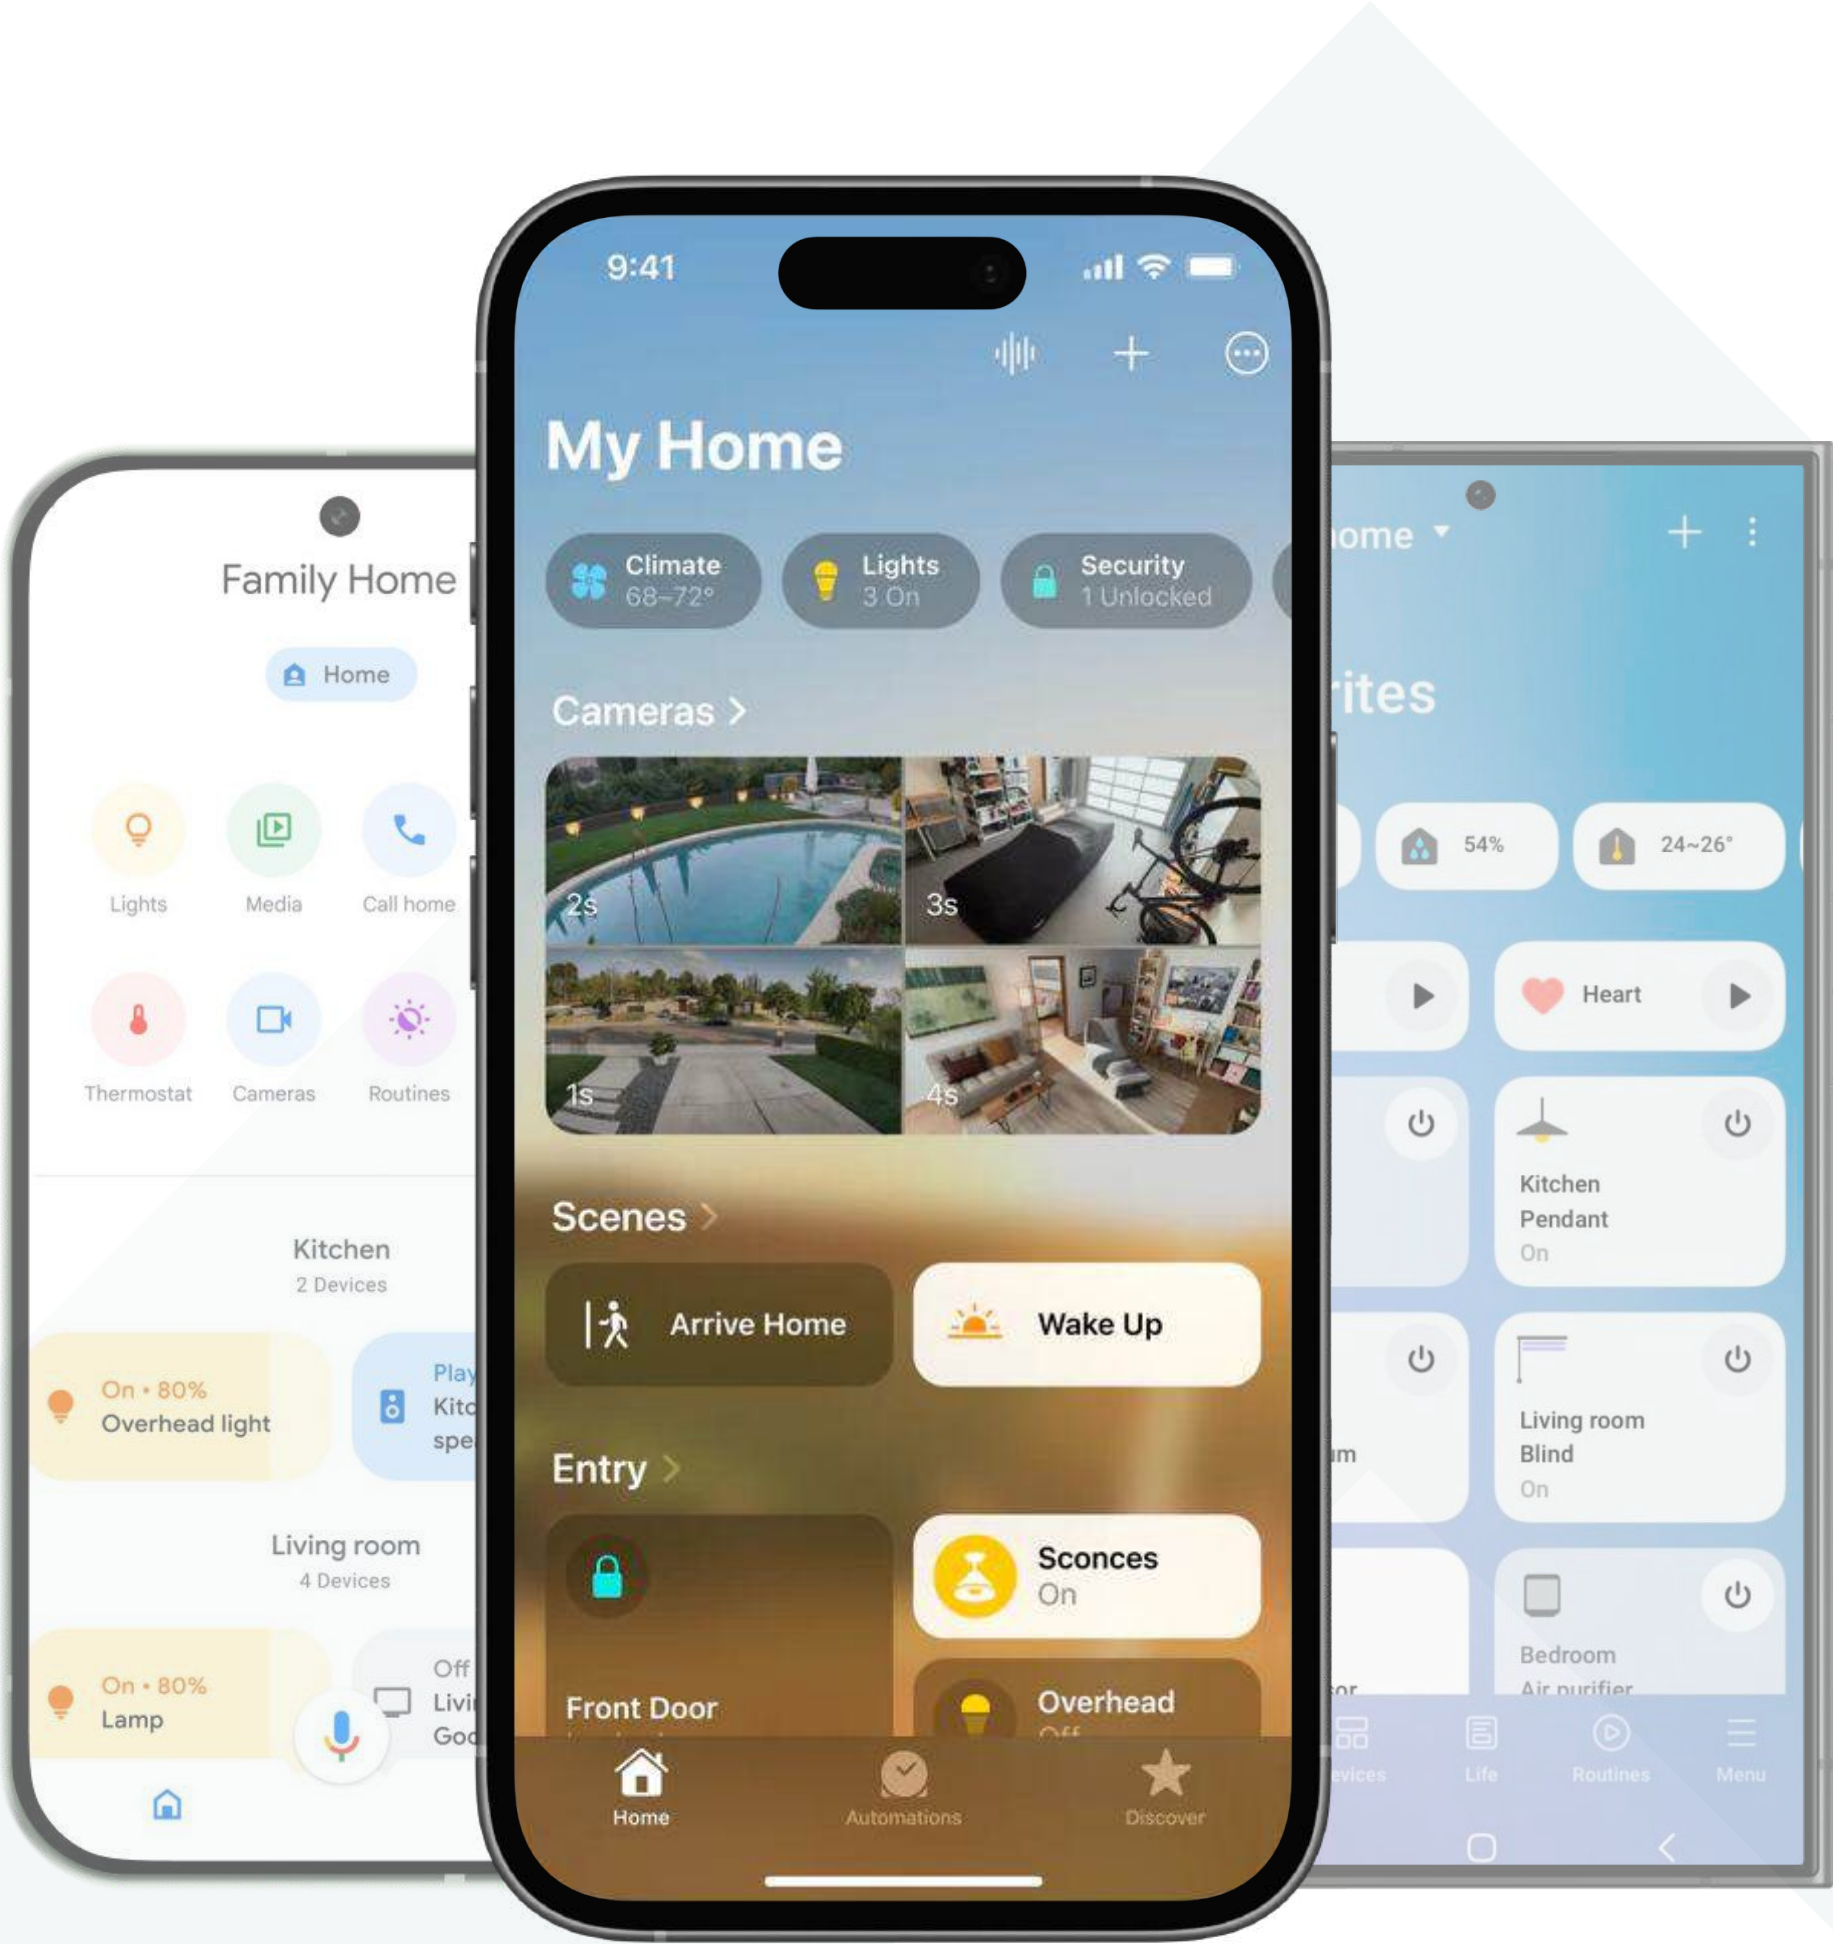

Shared Access

Remote Control

Allow your customers to control their smart home with the apps they know and love. Matter is the new smart home standard, that ensures user satisfaction and broadens your client base.

- ☒ User-friendly Interface
- ☒ Future-proof Technology
- ☒ Privacy & Security

Apple Home

Home Assistant

Google Home

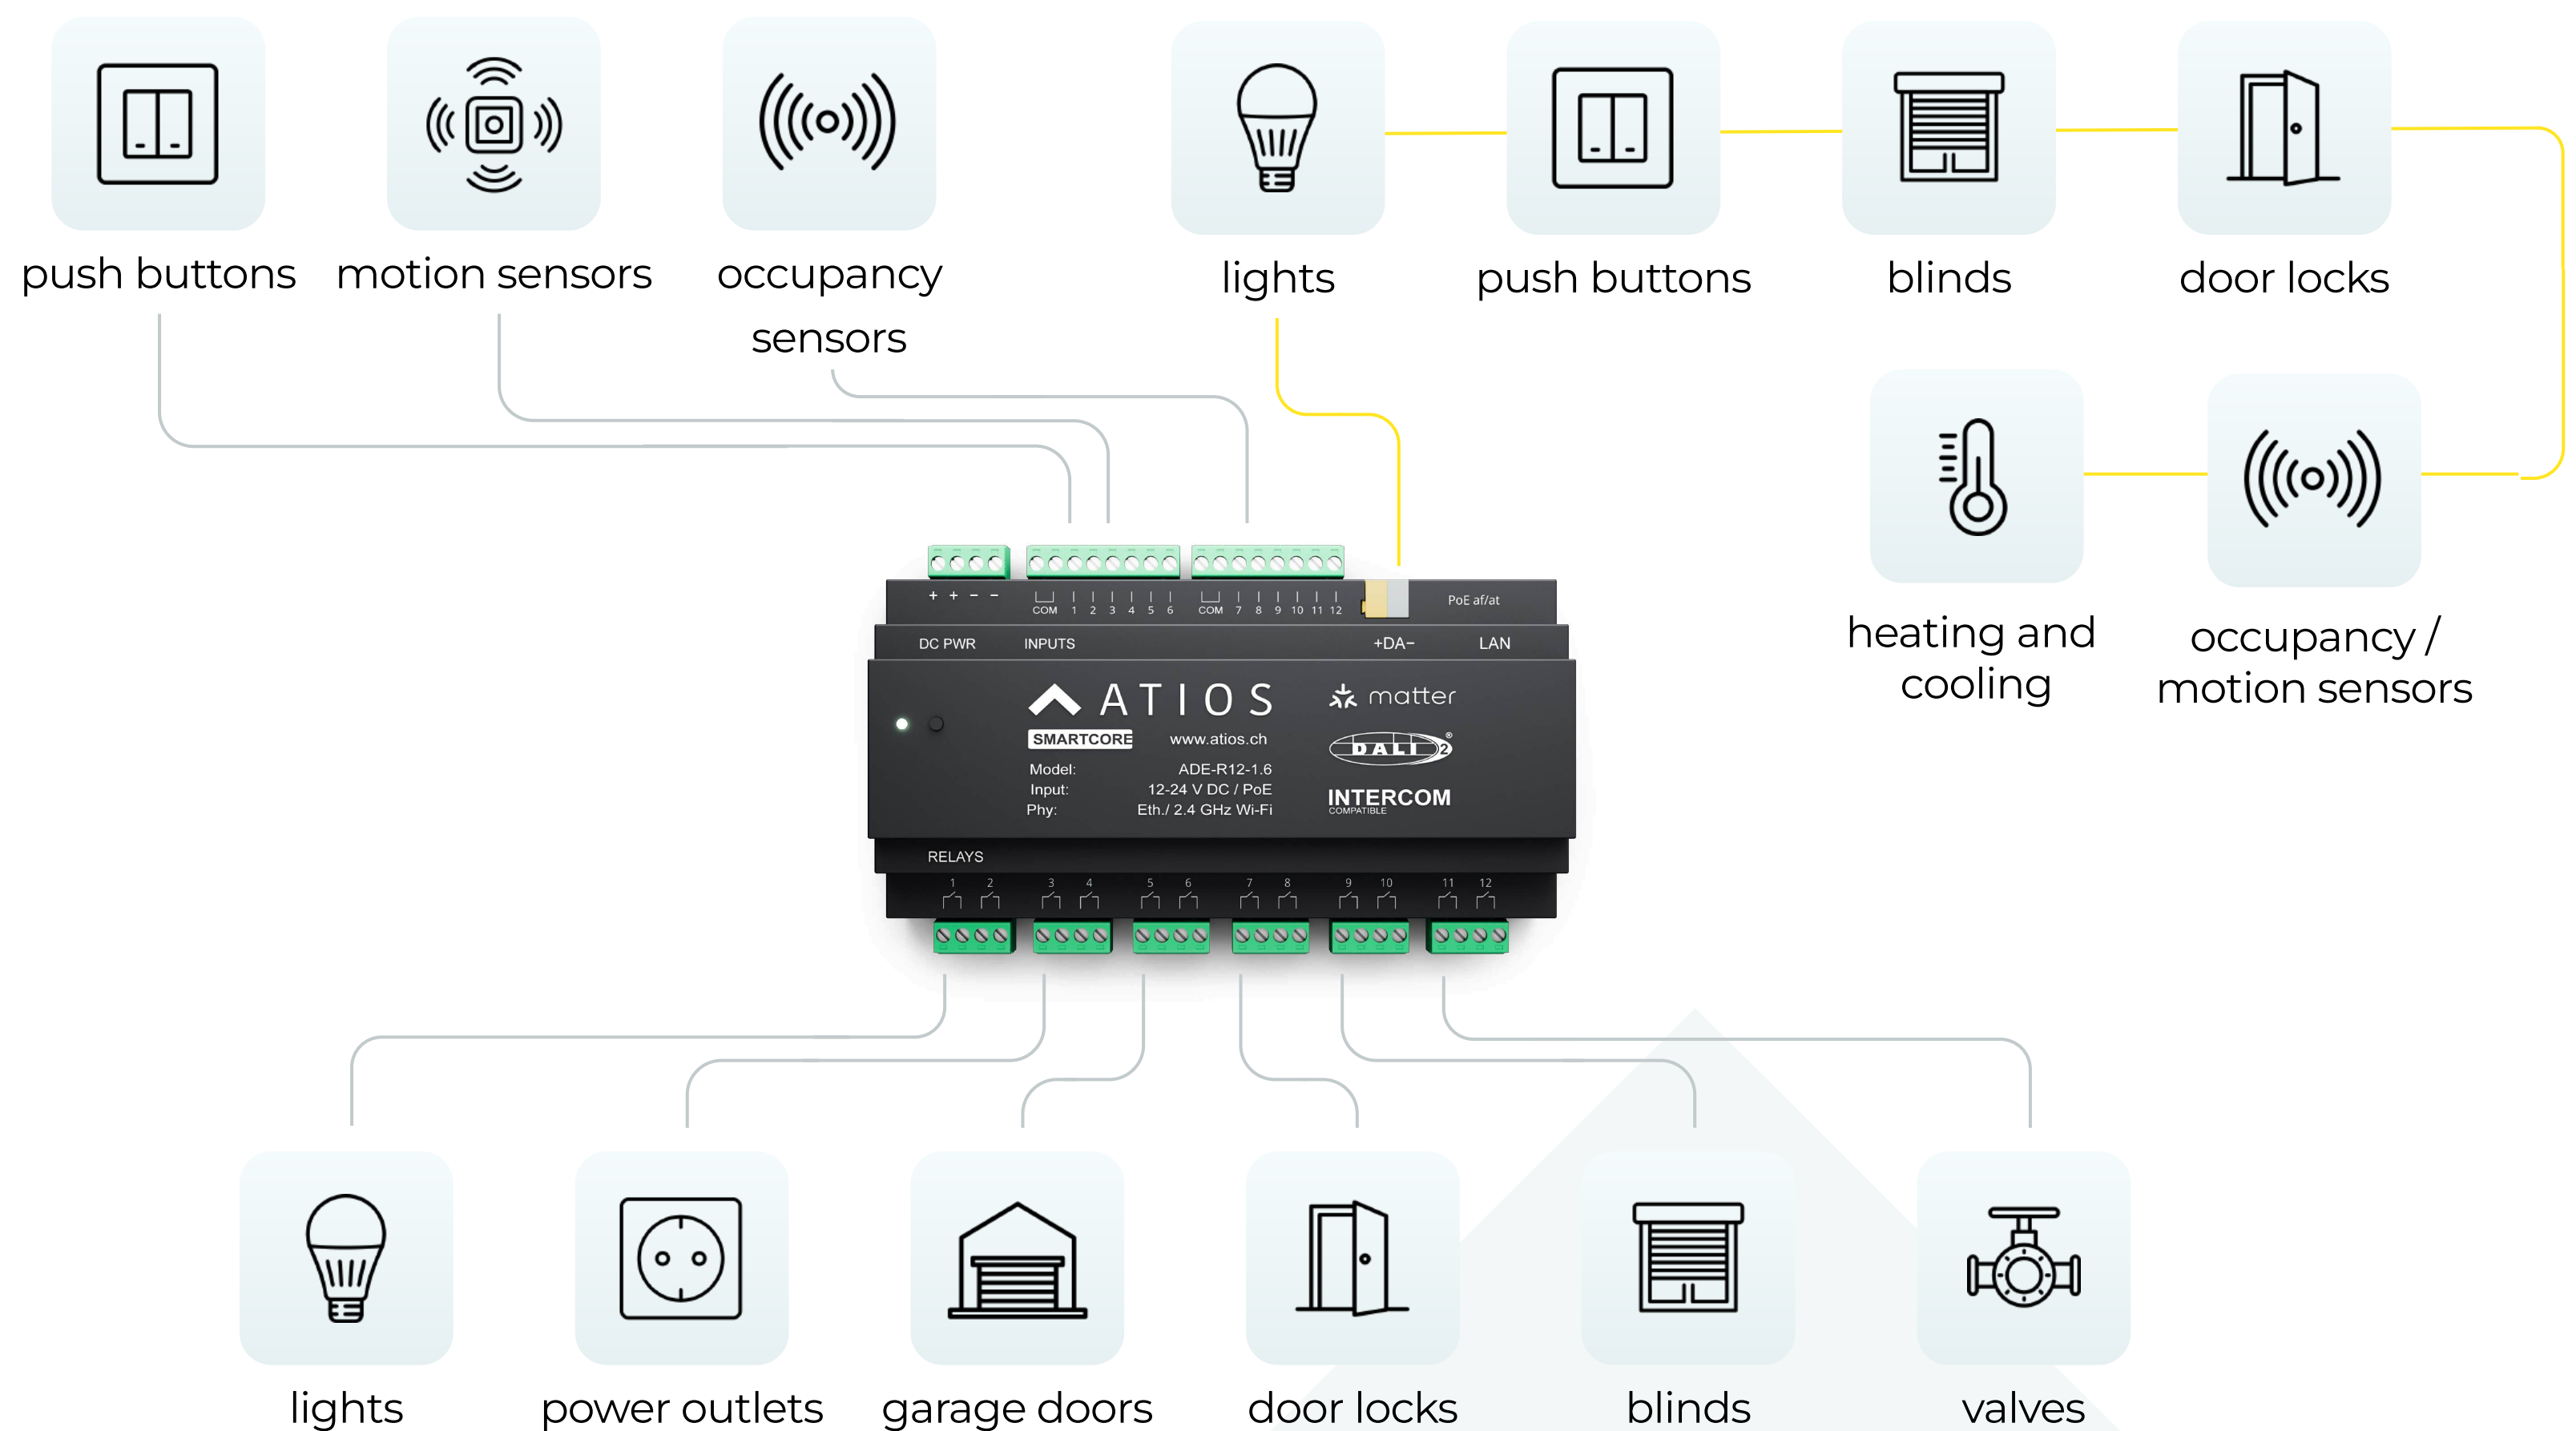

Amazon Alexa

Samsung SmartThings

Big potential for Smart Spaces

Atios SmartCore is the ideal solution for new builds, transforming entire spaces into smart homes. Control lights, blinds, and locks via relay outputs, connect push buttons and sensors as inputs, and expand with DALI for up to 64 lamps, relays, and DALI-2 sensors.

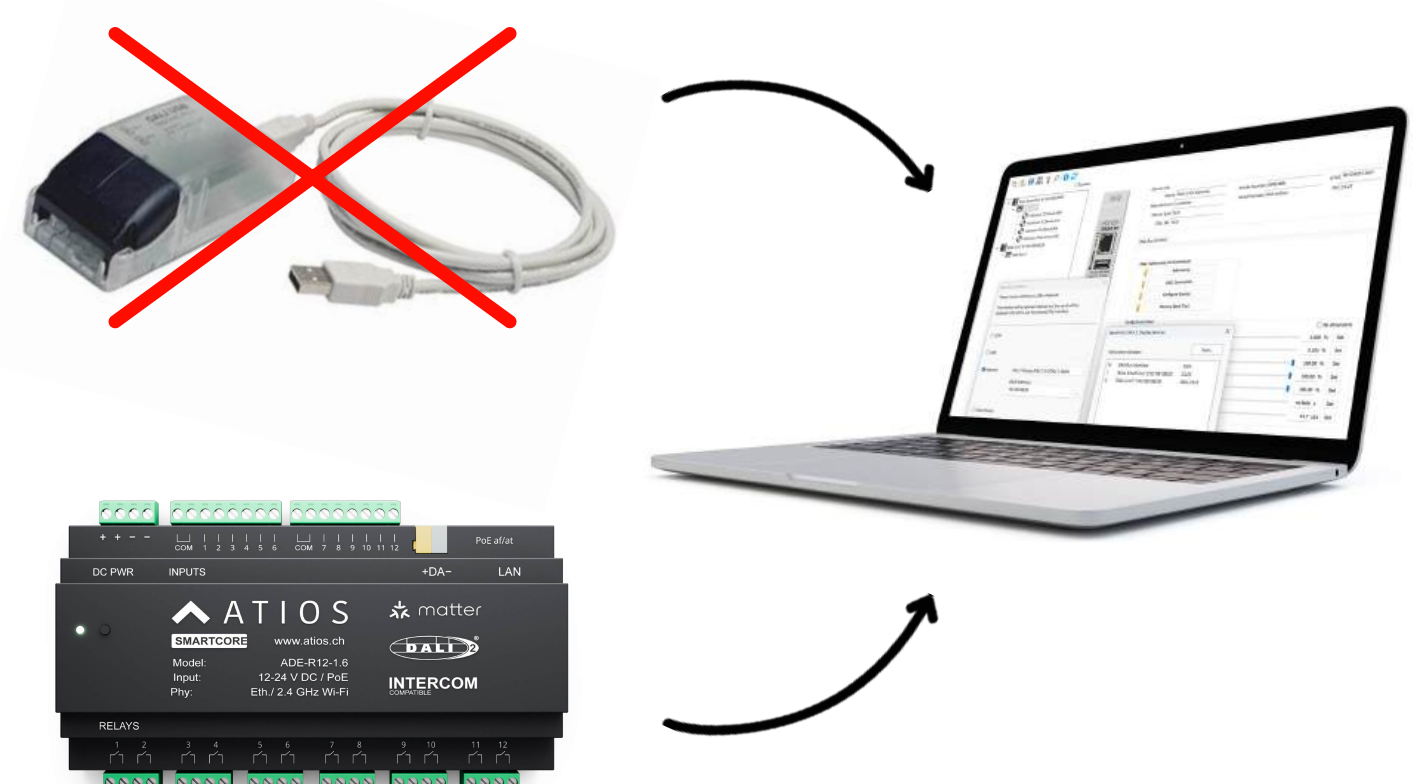

Ready in Minutes: No Programming Skills required

- ✓ Easy set up via Webinterface
- ✓ No additional software necessary
- ✓ Configuration saved on device

Are you an expert?

SmartCore's built-in **DALI IP Interface** connects **wirelessly** to **Lunatone Cockpit**. No need to carry a USB interface with you!
