ATIOS AG, an IoT hardware manufacturer headquartered in Zürich, Switzerland, specialists in providing innovative Smart home solutions that seamlessly integrate industry standards like DALI/DALI-2/KNX devices into contemporary smart homes ecosystems.

The advent of Matter as a widely adopted software standard has paved the way for ATIOS to offer effortless control and visualisation of DALI/DALI-2 & KNX devices through popular pre-installed apps like Apple Home Kit or Google Home.

With ATIOS Bridges, users can easily manage a range of functions including lighting, blinds, HVAC systems, door locks, garage doors, and more using platforms like Apple Home, Google Home, Amazon Alexa, Samsung SmartThings, or Home Assistant.

These cutting-edge devices are now available in Australia ex stock through **Linear Matrix**, enabling users to create customised scenes, set up automations, access their systems remotely, and seamlessly integrate with other Matter-compatible devices such as TVs and multiroom audio systems.

DALI/DALI-2 & KNX BRIDGE

SMARTCORE

- ✓ DALI/DALI-2 Projects
- ✓ KNX Projects

- ✓ DALI/DALI-2 Projects
- ✓ 12 INPUTS & OUTPUTS

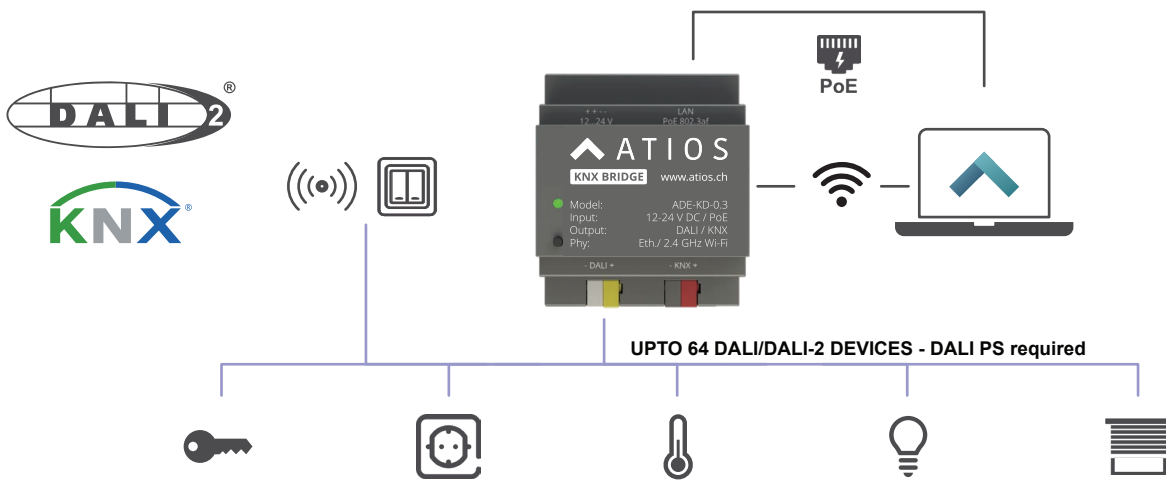

VISUALISE YOUR DALI/DALI-2/KNX INSTALLATION

DALI/DALI-2/KNX BRIDGE

The ATIOS DIN Rail Model ADE-KD-0.5 bridge is an essential component integrated into your electrical mains switchboard. You can establish connectivity through Ethernet with PoE or WiFi by utilising a dedicated 12-24V DC power source. Once set up, the ADE-KD-0.5 device becomes accessible on your local network, enabling seamless configuration via the Web interface. By setting up the group addresses for your DALI/KNX devices, you gain prompt control over your devices through popular interfaces like Apple Home kit or Google Home.

Notably, the ATIOS DALI/KNX bridge is available in 2 distinct configurations to cater to various needs.

✓ High End Homes/Commercial

✓ Remote Access

✓ DALI/DALI-2 - KNX Gateway

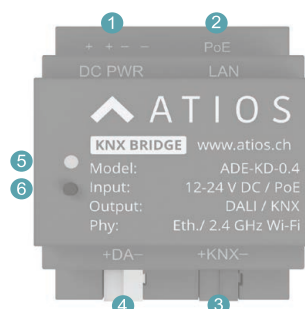

✓ KNX IP interface for ETS Programming

Ballast Type, Model ADE-KD-DE

DIN Rail Type, Model ADE-KD-0.5

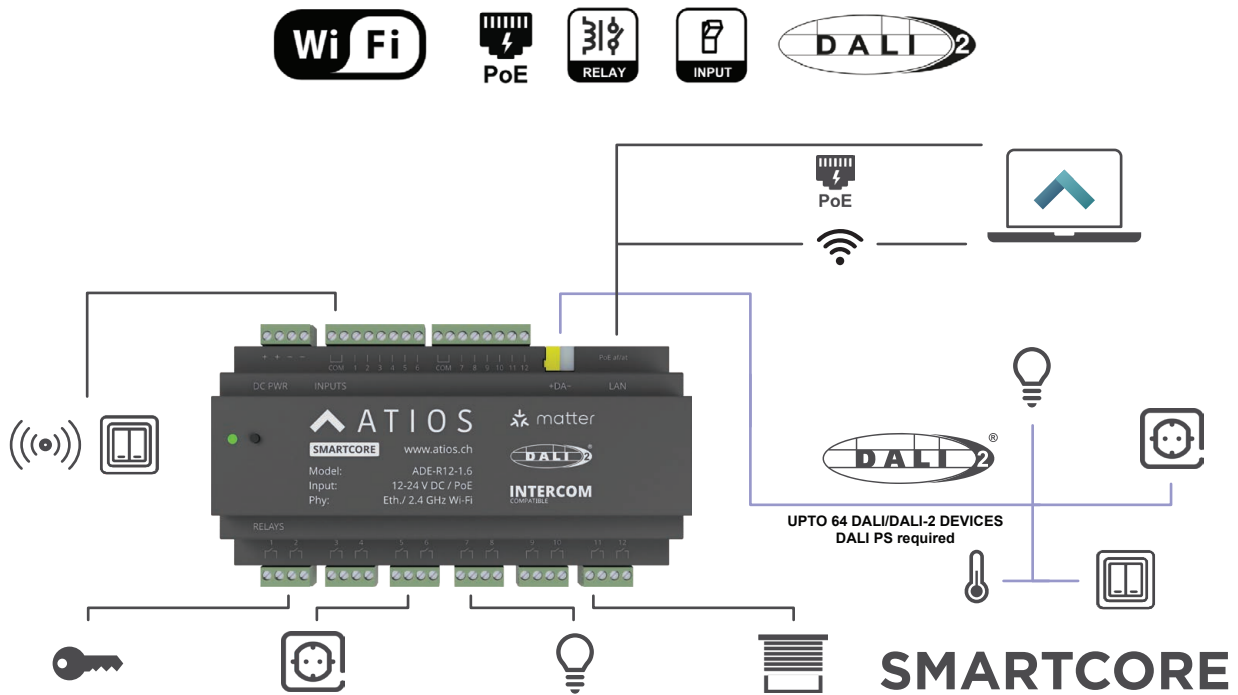

1	12-24 V DC Power Supply input
2	Ethernet Port with PoE
3	KNX TP Bus connector

4	DALI Bus connector
5	Status LED
6	Reset Button

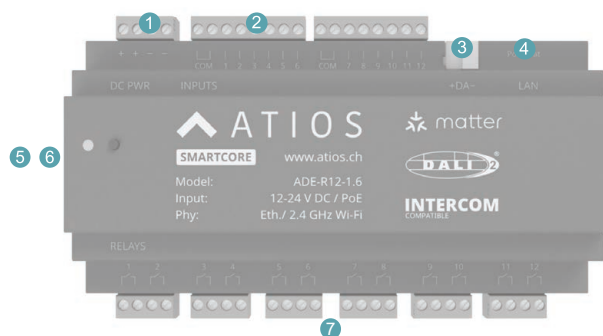

SMARTCORE

The ATIOS Smartcore Model ADE-R12-1.6 comes equipped with 12 relay outputs and inputs that provide immediate control over your current devices through the Apple Home Kit or Google Home Apps.

Furthermore, it can be expanded with a range of DALI actuators and sensors, including DALI dimmers, DALI motion detectors, as well as temperature and brightness sensors, enhancing its customisation capabilities.

- ✓ Apartments
- ✓ 12 Inputs & Outputs
- ✓ DALI/DALI-2 Interface
- ✓ Remote Access
- ✓ Easy Web Programming Interface

1	12-24 V DC Power Supply input
2	Digital Inputs
3	DALI Bus connector
4	Ethernet Port with PoE

5	Status LED
6	Reset Button
7	Relay Outputs
